Hi Tech IT Solutions is one of the few IT system integration, professional service and software development companies in Ethiopia that works with Enterprise systems, companies, organizations. Hi Tech IT Solutions has an excellent and experience team of professionals from various background and academics. We are perfectly poised to partner the client's business to new levels of efficiency, profitability and growth.

Hi Tech IT Solutions offers a range of solutions, like IT Consultancy, website development, software development, graphic designing, mobile apps development, E commerce and ERP Solutions and Network Installation. Our strong technology, an effective design team and custom product development expertise, promises to break into the top league of service providers to a wide clientele to the following verticals:

- Government (Local and Central)
- Financial Services (insurance, banking and clearing house)
- Telecommunications service provider
- Energy and Utilities
- Health Care
- Education
- Organizations and others...

Hi Tech is located in Ethiopia, Addis Ababa (Kirkos Sub city), offering fully fledged services for software, and website development empowering effective near-shore management to its clients recognized both on local and regional markets.

Hi Tech's differentiation point comes with three simple principles:

- True collaboration with customers and partners
- Complete understanding of customers business
- Persistence in finishing the job whatever it takes.

Infinite Solutions has a unique value in development, integration and implementation of HMS (Hospital Management System) based projects in Health Care verticals. We have highly skilled team of Project managers, Consultants and Developers.

We also have special expertise in custom software development – providing specialized products, IT services and custom end to end solutions to our enterprise customers. We gain competitive advantage from these distinctive capabilities and have developed the ability to implement and manage complex IT systems in changing times with greater effectiveness than many competitors.

Additionally, Hi Tech IT Solutions is experienced in delivery, installation and support of large computer systems and networks, providing back-up for customer systems in order to minimize the effects of possible faults. Service support is provided by Hi Tech IT Solutions service facility based in Ethiopia.

Its qualified staff is performing full servicing and repair of the equipment all over Ethiopia. Beside the normal working standard equipment, Hi Tech IT Solutions has equipment for testing, installation and technical validation of end user solutions.

Furthermore, we offer reasonable Service Level Agreements (SLA) covering most of the additional maintenance services. With our 24/7/365 days per year support, we are making troubleshooting as easy as possible.

Hi Tech IT Solutions is a company which intends to be in front of the client's needs, deeply understanding clients' business and delivering and optimizing IT solutions from the initial phase of scoping the requirements, up to the final delivery, maintenance and continuous upgrade. Hi Tech always looks at the things from the customer perspective, but also from customer's customer perspective to grasp their real business need for the IT solutions they deliver.

Our team operates with enthusiasm and flexibility. We are focused on our customers, being their reliable partner for IT services and solutions, working together on a partnership basis, helping them face the challenges of the modern times.
